

Spirit Mountain Casino - Grand Ronde, OR

Overall Golf Suites

Inside the Suite

A CHALLENGING YET REWARDING TRANSFORMATION

This exciting renovation brings a modern, interactive Top Golf experience to Spirit Mountain Casino, blending seamlessly into the existing space while adding a new dimension of entertainment for guests. With just 2,594 square feet to work with, our team maximized both function and visual appeal, creating an inviting and energetic atmosphere.

By integrating Top Golf with the sportsbook, we created a cohesive, sports-centric zone that makes the new golf bays feel like a natural extension of the space.

With the successful integration of a new entertainment destination, the casino has expanded its offerings to cater to a wider audience while maintaining the high-quality experience guests expect. We are excited to see this space come to life and look forward to the lasting impact it will have on the casino and its visitors.

PROJECTS UNDER DEVELOPMENT

At Lenity Architecture, we've been hard at work laying the groundwork for upcoming projects. With 14 projects currently under construction, we're starting off the year strong and can't wait to see these planned projects come to fruition.

BRIDGEWAY COMMUNITY HEALTH'S CAMPUS EXPANSION

City, State: Salem, OR

Project Type: 21,000+ Sq.-Ft. Health Campus Expansion

Project Specs: Lenity Architecture is proud to partner with Bridgeway Community Health to expand their campus. The addition will include sobering stations, which offers individuals a safe place to recover instead of being taken directly to jail, as well as Bridgeway's primary care clinic, and a dedicated Medically Managed Detox facility. A full commercial kitchen will also be integrated to provide high-quality meals for clients during their stay.

The addition's exterior will complement the existing building with coordinated colors and siding, while a new plaza at the primary entrance, framed by a partial building wall and a wood trellis structure, will establish a distinct presence along street frontage.

Our team has worked closely with Bridgeway to create a space that balances cutting-edge medical care with a comforting, non-institutional atmosphere. We look forward to seeing this project come to life and the positive impact it will have on the community.

The expected completion date is late 2025 to early 2026.

CEDARHURST OF CROWN POINT

City, State: Crown Point, IA

Project Type: Senior Housing

Project Specs: This state-of-the-art community will provide 82 beautifully designed suites across a two-story, 75,984-square-foot campus. Our architectural vision focuses on modern elegance, accessibility, smart functionality and a welcoming atmosphere that feels like home. With a mix of assisted living apartments and memory care suites, Cedarhurst of Crown Point will provide a vibrant, supportive environment where residents can thrive while receiving personalized care tailored to their needs.

Construction is expected to be completed by Spring of 2026!

REBUILDING WITH CARE: SUPPORTING COMMUNITIES AFTER WILDFIRE DEVASTATION

Earlier this year, multiple fires swept across Los Angeles County, leaving many communities devastated. Our hearts go out to all those affected. As the city embarks on the long road to recovery, we are reminded of the immense challenges that come with rebuilding.

Our firm is currently working on multiple homes in Hawaii that were impacted by the 2023 Lahaina Fire. From one-on-one client meetings to navigating permitting requirements and county regulations, we handle the logistics while approaching each project

with care and understanding. While we cannot restore these homes to their original state, our goal is to help families feel safe and at home once again.

Through this work, we've gained invaluable insight into the complexity and extended timelines of wildfire recovery. If you know someone who could benefit from our expertise, please don't hesitate to reach out. We are here to support families and individuals through every step of this challenging journey.

LEAVE US A REVIEW!

At Lenity, we know building relationships with good people is the key to success. This starts before we've even met them! Positive and thoughtful reviews from clients make a big difference in helping others feel confident about choosing Lenity Architecture.

If we've worked with you, we'd greatly appreciate it if you could leave us a Google review here: <https://g.page/r/Cd-hyVlugnS1EBM/review> A few sentences are all it takes! Your feedback not only supports us but also helps others make an informed decision.

Thank you so much for taking the time—we're truly grateful for your support!

LENITY ANNIVERSARIES

Longevity for the win!
